

Let us Help You Cut Costs with Energy Efficiency Upgrades

Do more for your business with DLC's energy-efficient business solutions.

Keep your business at the top of its game with energy-efficient upgrades to your facilities, discounts on equipment, and more! Duquesne Light Company offers a range of programs to help business customers lower monthly energy costs and benefit from rebates on projects. These updates can improve operational performance, occupant comfort, ventilation, safety, and are a great way to create savings in your monthly utility bills. Discover how you can do even more for your business with solutions from Duquesne Light Business Programs. See back for an overview of the offerings.

The available business programs include:

Small Business Direct Install Program

Designed for small business customers with an annual peak demand of less than 300 kW, this program offers:

- No-cost customized assessment designed to identify your facility's savings opportunities.
- Rebates of up to 80% of the materials-and-labor costs on qualifying upgrades when working with a participating contractor.

Business Solutions Program

Open to all business customers, this program offers:

- Rebates for energy-efficient retrofit and new construction projects, including VFDs, building controls, solar arrays, refrigeration equipment, compressed air, new construction and lighting, up to 180 days after the project is completed.
- A walkthrough of your facility to identify and estimate rebate opportunities by local engineering staff.

Instant Discount Program

Available through participating distributors, this program offers:

- Instant discounts on lighting and food service equipment, applied at the time of purchase.
- No paperwork for the customer to complete.
